

Parents,

As a district we are making efforts to be more environmentally conscientious. One new practice that has come from that initiative is to utilize paperless communication as much as possible. You are able to access Friday Folder information on our school website homepage by clicking the Friday Folder link. We would also like to e-mail these documents to you directly.

We understand that not every family has full connectivity to the internet and/or ability to download and print forms. In an effort to accommodate those families, we are requesting that you complete the form below and return it with your child.  
Thank you.
