

**Carnegie Science Center & Homer-Center Elementary PTA
present a Day of Science:**

Ion Jones and the Lost Castle of Chemistry

Parents,

We are looking for 14 – 18 adults to volunteer on Thursday, May 4, 2017. These adults will be responsible for running one of the ten activity stations for the day. The volunteers will have a short training session in the morning with the Carnegie Science Staff so that they are comfortable managing the activity table. Lunch will be provided to the volunteers as a thank you for their time.

If you would like to volunteer, the commitment would be for the entire day, 8:00 am – 3:00 pm. We will not be able to accommodate half-day rotations. Please complete the form below and return it with your child if you are able to help make this day a success for the students.

Thank you in advance,

Julie Arone, PTA
Cathy Hays, 4th Grade Science
